Portfolio Task 3

You are required to:

1. Explain using your own words and including a theoretical example of each the following types of trigger:
 - a. Statement level
 - b. Row level
2. Complete the lab on triggers in week 7 (named W6-Triggers-Lab)
3. For each of the questions numbered 2 to 6 in the triggers lab (W6-Triggers-Lab) include the following to your portfolio:
 - a. The code to create the trigger
 - b. Evidence of the trigger working
 - c. Your opinion on whether the trigger is a statement level or row level trigger offering justification for your opinion.
